[YOUR NAME]

ENTRY-LEVEL CYBERSECURITY ANALYST

[City, State] | [Phone] | [Email] | [LinkedIn] | [GitHub / Portfolio]

PROFESSIONAL SUMMARY

[2-3 sentences] Motivated cybersecurity beginner with hands-on practice in network monitoring, Linux, vulnerability scanning, security labs, and incident-response fundamentals. Highlight the tools you have used, your strongest transferable skill, and the type of role you are targeting.

CORE SKILLS

SECURITY
SIEM basics • Log analysis • Vulnerability scanning • IAM fundamentals • Incident response

SYSTEMS & NETWORKS
TCP/IP • DNS • HTTP/S • Windows • Linux • Active Directory basics • Wireshark

TOOLS & SCRIPTING
Nmap • Burp Suite • Splunk / ELK • Git • Python basics • Bash • PowerShell basics

HANDS-ON CYBERSECURITY PROJECTS

[PROJECT NAME - e.g., SOC Home Lab / Network Traffic Analysis] | [Month Year]

- Built or configured [lab environment / VM setup / network] using [tools]. State what you actually set up and why.
- Investigated [logs, packets, alerts, vulnerabilities] and documented findings, risk, and recommended remediation steps.
- Quantify where possible: reviewed [X] events, scanned [X] hosts, created [X] detection rules, or reduced a manual task by [X]%.

[SECOND PROJECT - e.g., Vulnerability Assessment / Phishing Analysis] | [Month Year]

- Used [Nmap / Nessus / OpenVAS / Burp Suite / Wireshark / SIEM] to identify or analyze [issue].
- Produced a concise report with evidence, severity, business impact, and practical remediation recommendations.

EDUCATION & CERTIFICATIONS

[Degree / Diploma / Bootcamp / Relevant Coursework]
[School / Provider], [City] | [Year or Expected Year]

[Certification - Earned or In Progress]
Examples: Security+, Google Cybersecurity, ISC2 CC, Azure Fundamentals | [Date]

EXPERIENCE & LEADERSHIP

[JOB TITLE / VOLUNTEER ROLE / STUDENT LEADERSHIP] | [Company / Organization] | [Dates]

- Translate non-cyber experience into relevant strengths: troubleshooting, customer communication, documentation, process improvement, accuracy, teamwork, or handling sensitive information.
- Start with an action verb and show impact: "Resolved [X] weekly requests while maintaining [Y]% accuracy" or "Created a checklist that reduced repeat errors."

ADDITIONAL

CTFs / TryHackMe / Hack The Box: [Profile or achievement] | **Professional Memberships:** [OWASP / ISSA / school cyber club] | **Work Authorization / Languages:** [Optional]
